

# Solar PV Connection Process

## What happens from here?

Please ensure that you have provided the NMI reference for your property as it is required for all solar PV grid connections. The NMI appears on your electricity bill (an 11-digit number starting with 6). If you don't have a bill on hand you can call your Electricity Retailer and they will be able to tell you what your NMI is.

PLEASE NOTE THAT YOUR CONNECTION DOCUMENTS EXPIRE 12 MONTHS FROM THE DATE OF INSTALLATION. IF YOUR SYSTEM IS NOT GRID-CONNECTED DURING THIS TIME YOU WILL NEED TO HAVE THE SYSTEM RE-CERTIFIED AND NEW DOCUMENTS PREPARED. CHARGES WILL APPLY.
